1. Aim:

To create an infographic in Figma explaining the concept, architecture, components, and working of a Public Land Mobile Network (PLMN).

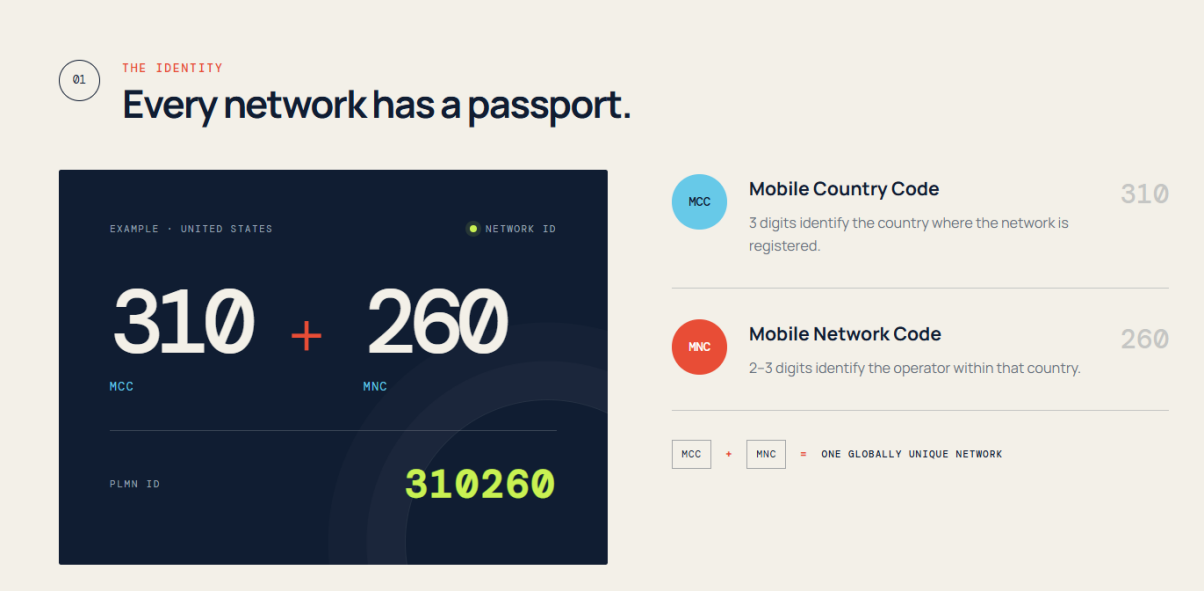

2. Software Used:

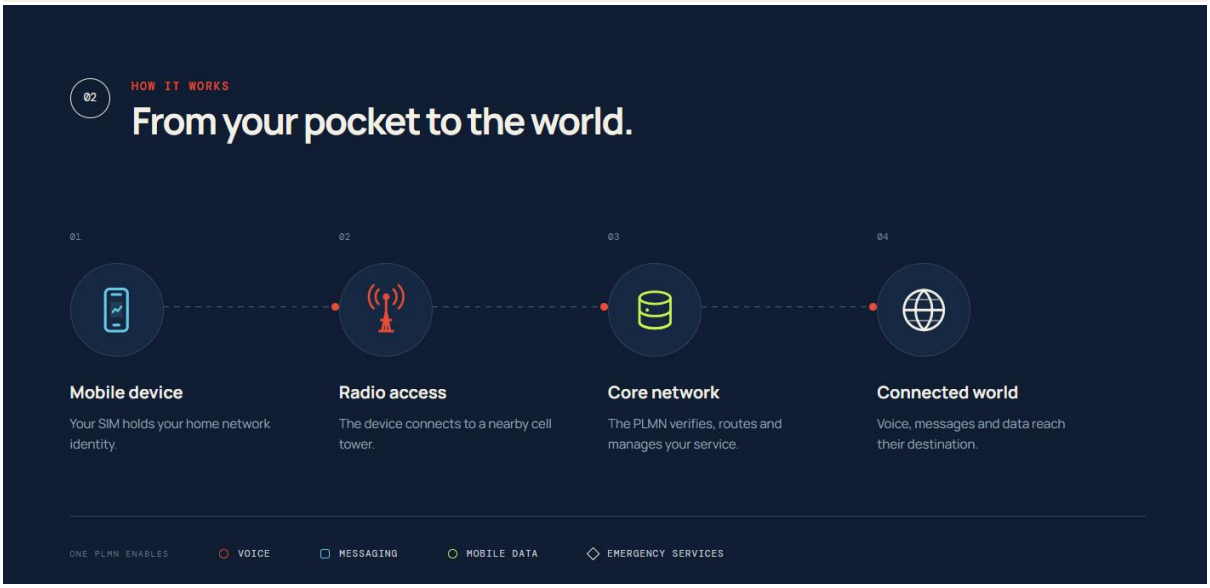

- Figma
- Web Browser
- Internet Connection

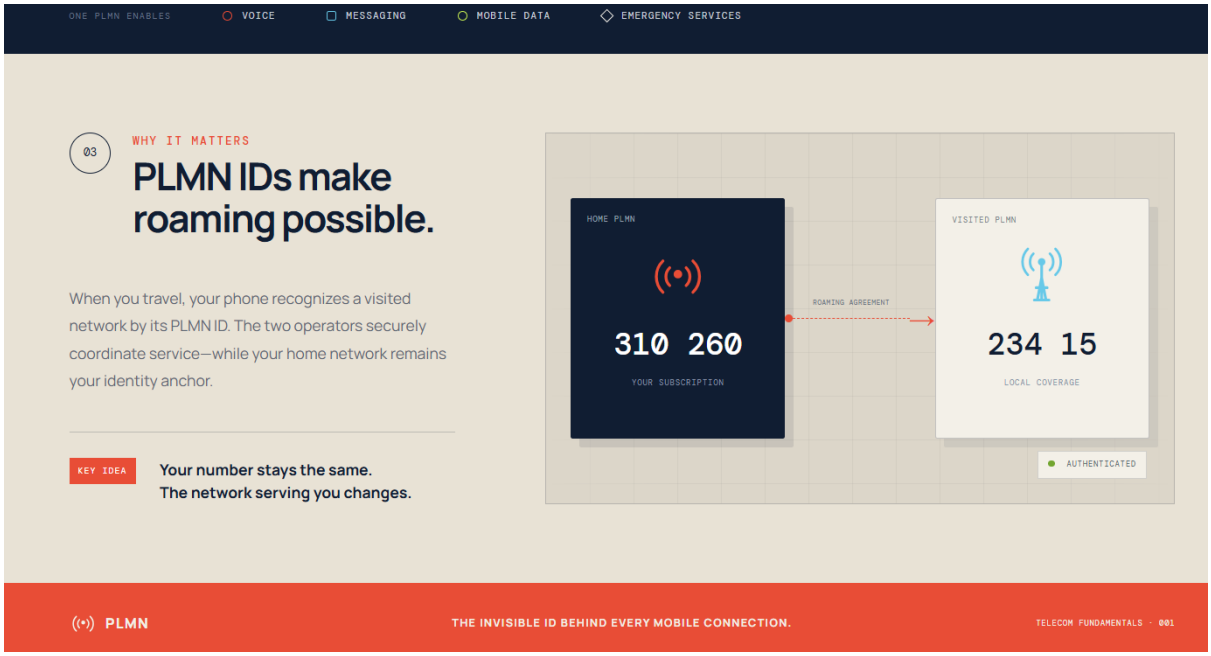

3. Algorithm:

1. Open Figma and create a new design file.
2. Add a suitable title, Public Land Mobile Network (PLMN).
3. Illustrate the PLMN architecture with mobile stations, base stations, switching centres, and databases.
4. Use icons, shapes, arrows, and labels to represent network components.
5. Show how mobile users connect to the network and communicate with other users.
6. Apply suitable colours and arrange all elements clearly to complete the infographic.

DESIGN & PROTOTYPE

4. Result:

Successfully created an infographic using Figma to explain the architecture, components, and working process of a Public Land Mobile Network (PLMN).
